

Computer Accounts Management Service

Account Setup Wizard

Step 5: Account Creation and Delivery to Client

We are creating your accounts right now. It may take up to one minute to create each account. Please be patient.

Your main Drexel account is ***USERID*@drexel.edu**. For students and employees this is also your Office 365 login.

Your official email alias, **Priontu.Chowdhury@drexel.edu**, points to the same mailbox, and is the version of your address that appears in the University directory and on official University mailing lists.

Your **Main Drexel Account** has been created for you. Your account name (also called a user-id) is **pc833** and the account password is **DevilMayCry21**

You'll use your main Drexel account to sign into DrexelOne and other services. Go to DrexelOne to keep up on campus news, register for classes, pay your bills, take online courses, check your grades and more. Check it out, at one.drexel.edu.

All Drexel students and most Drexel employees will also have access to [Office 365](#) (where you can access your Drexel email and download Office apps). If you are picking up your first accounts, you'll sign in with this form of your email address **pc833@drexel.edu** and the password above.

It may take up to 45 minutes for your new Office 365 service to be activated.

A **Drexel Legacy** account has been set up for you. Your account user-id is **pc833** and its password is **DevilMayCry21**

You might use this account to sign in to certain older systems.

The following **University ID Number** has been assigned to you: **14601785**. You may need to know this 8-digit number to identify yourself to various administrative systems on campus.

New account creation is now complete. If you have not written down the account names and passwords shown above, please do so now; otherwise you won't be able to access your own accounts.

As a safety precaution, we've logged you out so that others can't access your accounts. Enjoy using your new accounts.
